

Safety Precautions:

Do not smoke, drink or eat while using this product.

For safety when mixing:

Do not open or puncture soluble sachet as undiluted product may irritate your eyes and skin.

For safety when spraying:

As with all chemicals, avoid contact with spray.

Wear a mask covering nose and mouth.

Wear eye protection when spraying overhead or in confined places.

Do not spray directly onto food.

Do not spray over rivers or fish-bearing waters.

For safety after spraying:

Wash your self and your clothes.

Dispose off empty packs carefully by burning.

Do not dump unwanted product in water.

Keep unused KINGLET Lambda 15%WP in original pack , locked up out of reach of children and away from food.

First Aid: Eye Contamination: Immediately wash out with water for 10-15 minute. Go to a doctor if not recovered.

Skin contamination: Immediately wash with soap and water.

If KINGLET Lambda 15%WP is swallowed make the person vomit . Take the person and this pack to a doctor immediately.

Medical Treatment:

Perform gastric lavage, taking care to avoid aspiration of gastric contents. Consider administration of activated charcoal and a laxative. Treat symptomatically.

Direction for use:

1. Half fill the spray tank with water.
2. Tear open this outer foil wrapper.
3. Withdraw the inner soluble sachet.
4. Drop the sachet of KINGLET Lambda 15%WP into spray Tank.
5. Wait for two minutes for the sachet to dissolve.
6. Add the remaining water and close sprayer.
7. Pump up the sprayer to correct pressure.
8. Apply insecticidal spray as indicated below.

Target Pest	Water/Sachet	Application Rate
Mosquito (Malaria, Dengue), House Fly, Ants, Bugs, Cockroaches	Exterior: 4 to 5 Liters Interior: 6 to 7 Liters	50ml/m ²

Different substrates have different abilities to absorb spray and this will affect the coverage rate achieved for each pump. Mud & brick will absorb more spray than wooden, metallic or cured concrete surfaces.
